# SUMMARY

- The El Niño–Southern Oscillation (ENSO) is now in an El Niño Alert event.
- Most climate model (>70%) agrees El Niño events in the coming months
- The rainfall outlook for Tuvalu indicates a mixture of above-normal (wetter-than-normal) and below-normal (drier-than-normal) rainfall conditions during both the July and July -September periods.
- Maximum and Minimum temperatures across Tuvalu are forecast to remain above normal, indicating (hotter– than-normal) conditions through-

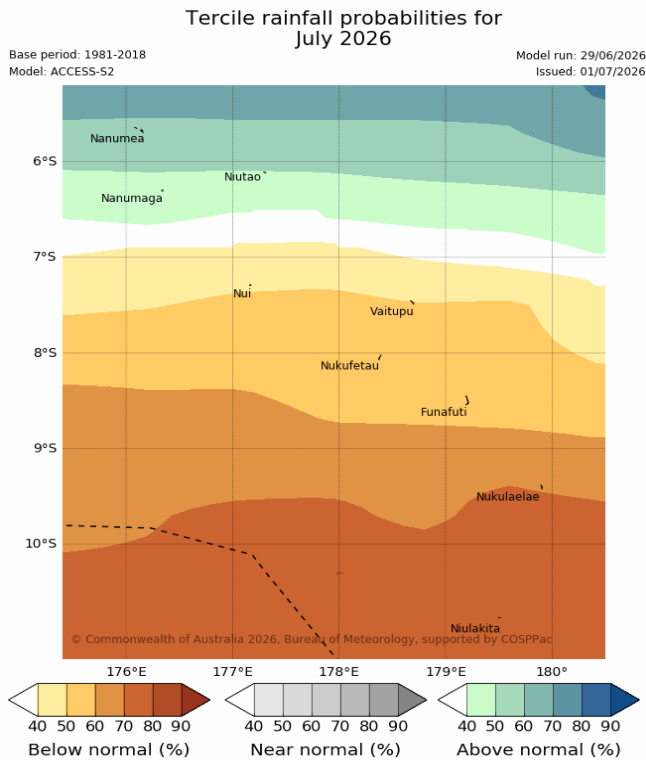

## El- Niño SOUTHERN OSCILLATION (ENSO)

- The tropical Pacific continues to warm as most model (70%) reaches the El Niño threshold.
- For El Niño to be considered established, a corresponding atmospheric response would need to be observed.

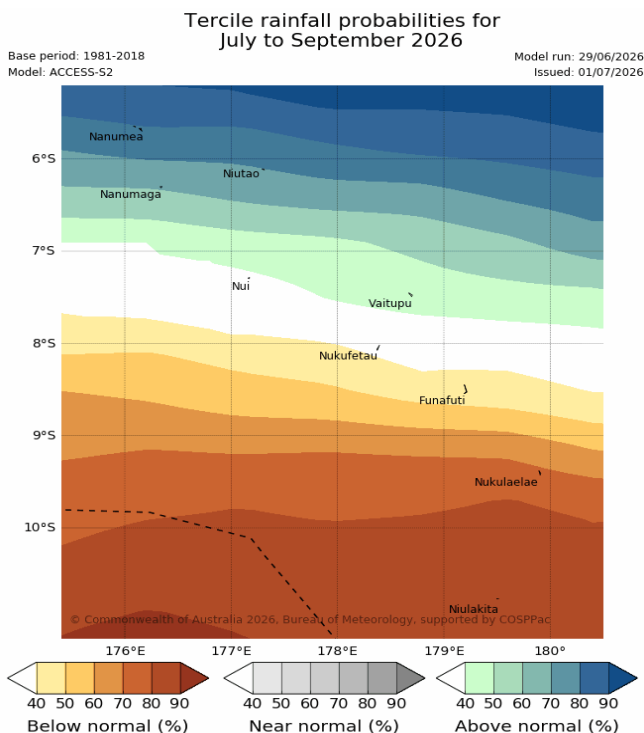

# RAINFALL OUTLOOK

## JULY 2026

Above normal (wetter-than-normal) rainfall is forecast for the Northern islands of Tuvalu, while below-normal (drier-than-normal) rainfall is expected across the central and Southern islands

## JULY TO SEPTEMBER 2026

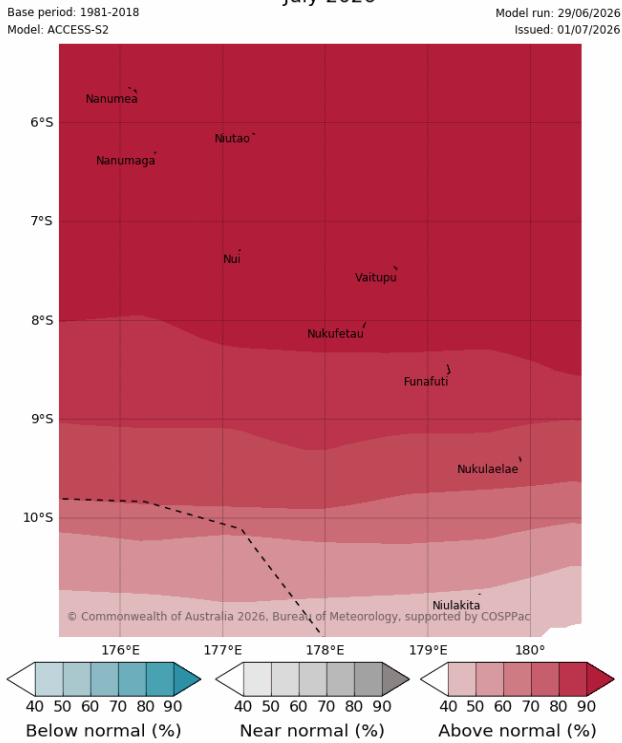

Above normal (wetter than normal) rainfall is forecast for the Northern islands and Vaitupu. Near normal rainfall is expected for Nui and Nukufetau, while the Southern group has a slightly increased likelihood of below normal (drier than normal) rainfall.

# AIR TEMPERATURE OUTLOOK

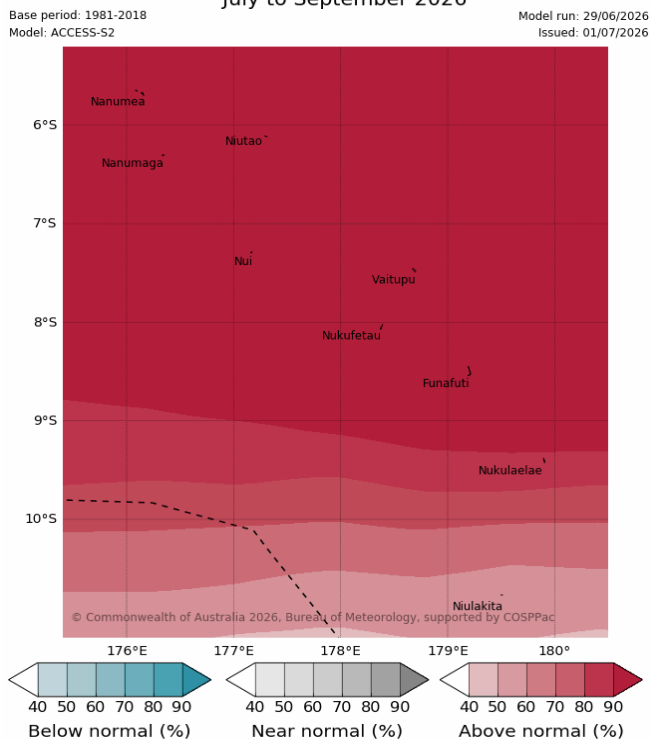

## Monthly and Seasonal Minimum Temperature

Tercile minimum temperature probabilities for July 2026

Minimum temperatures across Tuvalu are very likely to remain above normal (hotter than normal) during the July period

Tercile minimum temperature probabilities for July to September 2026

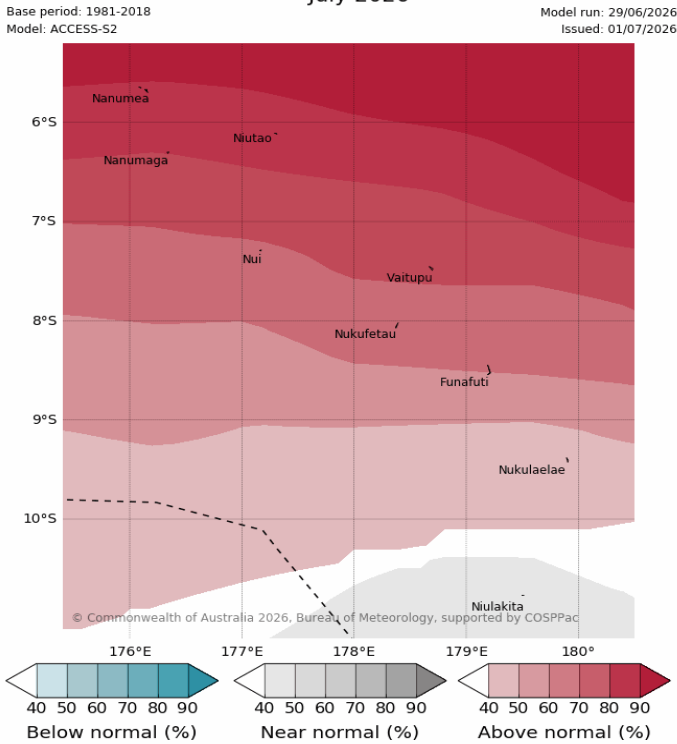

Above normal (hotter than normal) minimum temperatures are very likely across Tuvalu for the July—September 2026 period.

# AIR TEMPERATURE OUTLOOK

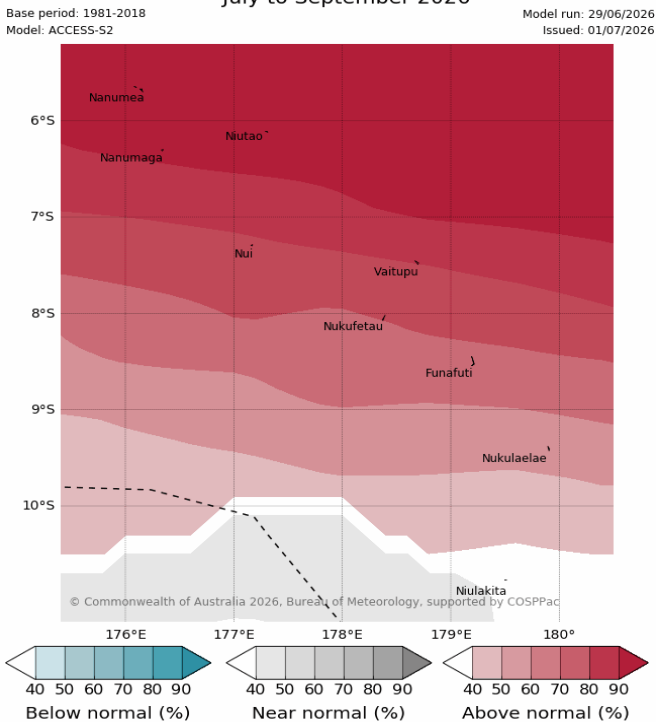

## Monthly and Seasonal Maximum Temperature

Tercile maximum temperature probabilities for July 2026

Maximum temperatures during July 2026 are very likely to be above normal (hotter than normal) across Tuvalu, except for Niulakita, where near normal-normal temperatures are expected.

Tercile maximum temperature probabilities for July to September 2026

Maximum temperature for July to September 2026 are very likely to be above normal over Tuvalu, except Niulakita with near average temperature.
